

Beelden aan Zee Museum 海牙雕塑美术馆

2017-03-23 艺中

荷兰海牙雕塑美术馆是荷兰唯一一家专业收藏、研究、展示当代雕塑的美术馆，海牙雕塑美术馆座落于海牙市席凡宁根区，由雕塑收藏家Theo 和 Lida Scholten夫妇创建于1994年。自建馆伊始，本馆已经举办了200多个展览，平均每年接待75000多位参观者。

海牙雕塑美术馆的学术定位，主要是展示荷兰国内以及当今国际上的现当代杰出雕塑家的重要作品。策展人每年都会在宽敞的圆拱形空间中安排三至四个全新的、重要的主题展览。本馆的展览和研究方向都将围绕着一一定的学术宗旨，例如2010年：6位当代艺术家的联展《多余的土地》和《父与子》。我们每年也举办杰出的艺术家个人作品大型展览。美术馆收藏和长期展示卡雷尔·阿佩耳（Karel Appe）、维姆·奎斯特（Wim Quist）、曼·雷（Man Ray）、弗利兹·克尼革(Fritz Koenig)的重要作品。本美术馆的目的是利用混合形式与不同材料的作品来表达“人之体验”。2004年雕塑学院（Sculptuur Instituut）入住海牙雕塑美术馆，雕塑学院是研究现代雕塑的学术机构，其图书馆在美术馆的开放时间中可以任由参观者自由阅览。

建筑特点

海牙雕塑美术馆由著名建筑师维姆·奎斯特（Wim Quist）所设计，其与国王威廉姆一世（King William I）为其爱妻威廉明尼（Wilhelmine）暨当时的普鲁士王国公主在1826年所建的行宫进行了完美的结合。

美术馆为了不破坏周围的海岸环境而隐匿于沙丘之中，阳台位于沙丘之上，但四周目力也无法触及，参观者在建筑的屋顶能够上窥见大海。在这个混凝土和玻璃材料混搭而建的美术馆里，建筑师根据展示功能专门设计了独特的悬挂系统，每段墙内都置有预埋螺钉，可以随意把艺术品悬挂在任何一个螺钉上。美术馆建设在多个层次基础上，阳光可从顶部倾泻而入。美术馆拥有诸多户外展示区域，我们为了方便参观者，在阴雨天会赠送免费的雨衣。美术馆设有咖啡厅、书店，残疾人配套设施也相当齐全。

Beelden aan Zee Museum

Beelden aan Zee ("Images/sculptures by the sea") museum in the Scheveningen district of The Hague, was founded in 1994 by the sculpture collectors Theo and Lida Scholten. Since its opening it hosted more than 200 exhibitions and it welcomes over 75,000 visitors per year. The Beelden aan Zee is the only Dutch museum specialized in exhibiting sculpture.

The museum shows contemporary international and national sculpture. The curators organize new exhibitions three or more times per year in its large circular main space. Exhibitions are created on themes such as the 2010 exhibitions, "Unwanted Land" by 6 contemporary artists or the "Fathers and Sons" show, or exhibitions around a particular artist. The museum features works by Karel Appel, Wim Quist, Man Ray, and Fritz Koenig. The mission of the museum is to use a mix of forms and materials in the works to express "the human experience."

Since 2004, the museum building also houses the *Sculptuur Instituut* ("Sculpture Institute"), a research institute on contemporary sculpture. The institute library is accessible during museum opening hours.

The Building

The museum building was designed by architect Wim Quist, underneath the historic "Pavilion of Wied" King William I built in 1826 for his wife, Princess Wilhelmine of Prussia. Before construction started, the municipality of The Hague required that the museum not be visible from the dunes. The museum has accordingly been built entirely

underground, with terraces on the dune, which are also not visible from a distance. The museum is also not visible from the boulevard. From the roof of the museum one can see the sea, but not the boulevard nor the Scheveningen beach. As a result, the museum can be hard to find although it is sign posted from the end of the street.

The concrete and glass structure has an unusual slot-system in the concrete walls designed by the architect, so that sculptures or paintings can be hung from a bolt set into one of the many blocks in the walls. The whole museum is built on various levels with light coming in from above in many spaces. It includes a number of outdoor areas and museum supplies raincoats for visitors. There is also a cafe and a bookshop, as well as facilities for the disabled.

Among the most important exhibitions there are:

Picasso by the Sea. Ceramics and sculpture 2016-17

Anish Kapoor. Mountain 2016-17

Henri Laurens 2014

Jacques Lipchitz. From the Israel Museum 2012
